PROFILE • ABOUT ME

Graduate as a Software Engineer, looking for an Opportunity to contribute my skills and knowledge of experience towards developing, analysing testing and debugging. As a fresher am willing to widen my thoughts and master new skills to build a better career to bring quality work towards the organization.

WORK EXPERIENCE

Front-End Developer (Intern) at Quickplay Media

Worked on a web Application which is a Content Management System (CMS) for OTT platforms

- Created Common components for to provide consistence through the application and save valuable time for further changes.
- Report and fix UI issues and come close to the design as much possible.
- Report and fix bug issues.
- Created dynamic API integrated pages within the application as per the client's request.

PROJECTS

Data Science, Data Exposys Lab

Diabetic Prediction using Machine Learning

- Use PIMA dataset from Kaggle to train and test where I got accuracy of 71% if a person has diabetic

Cryptanalysis, NIST

Statistical Modeling for LSB-Based Image Steganalysis

- Used algorithms like Knaive to identify if an image has any hidden message in it.
